

Englisch Beispiel 2

THEMENBEREICH: Umwelt und Lebensqualität

SCHWERPUNKT: Transport und Autotechnologie

AUFGABENSTELLUNG:

Situation

You work as a trainee for *Continental* at an automotive trade fair. Your aim is to recruit young people as future employees as well as to inform about the company's work in the development of automated driving.

Individual Long Turn (4-5 minutes)

A group of technical students visits your stand and wants to know more about your company.

- Inform them about *Continental* in brief (**attachment 1**).
- Argue why the company offers trainee programs (**attachment 2**).
- Convince the students of the benefits of doing an internship at an international automotive company (**attachment 2 and your own ideas**)

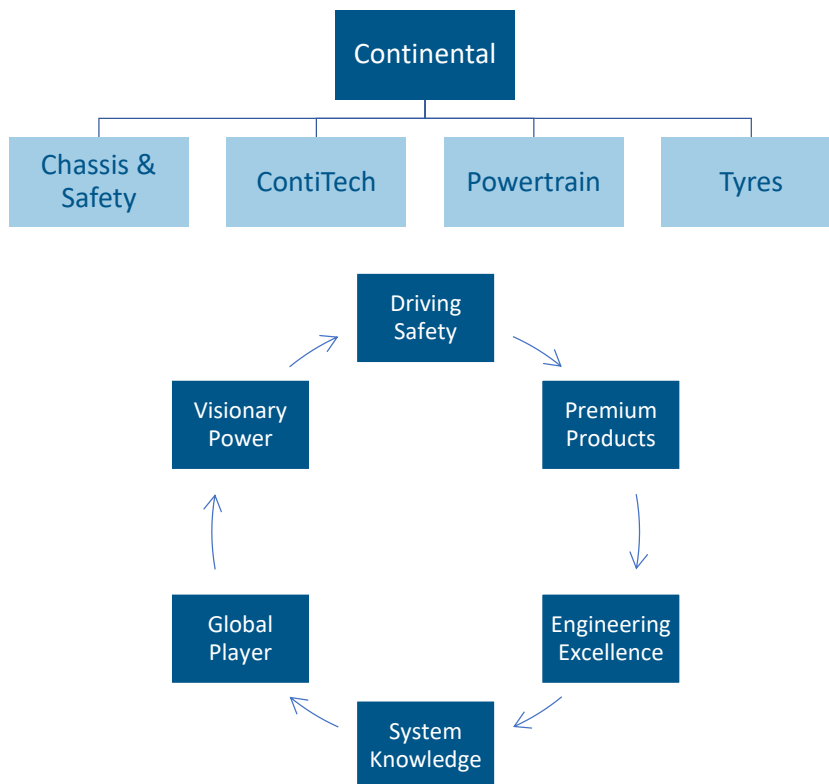

Interaction (8-10 minutes)

As you work in the *Chassis and Safety Division* the group's teacher wants to talk about the issue of driverless cars with you.

In your discussion you should...

- interpret recent findings on what people think of driverless cars (**attachment 3**)
- discuss safety and security aspects
- speculate on the future of transport technology in general
